Credit scores

FICO® Score 8

Your score is well below the average score of U.S. consumers and demonstrates to lenders that you are a risky borrower.

What's helping

✓ Long credit history

- You have an established credit history.
- Your oldest account was opened: 19 Years, 5 Months ago
- FICO High Achievers opened their oldest account 26 years ago, on average.
- Average age of your accounts: 8 Years, 2 Months
- Most FICO High Achievers have an average age of accounts of 10 years or more.
- FICO® Scores measure the age of the oldest account and the average age of all accounts being reported. Generally speaking, having a relatively long credit history and not opening many new accounts is reflective of lower risk.

What's hurting

— Serious delinquency

- You have a serious delinquency (60 days past due or greater) or derogatory indicator on your credit report.
- Number of your accounts that were ever 60 days late or worse or have a derogatory indicator: 5 accounts
- Virtually no FICO High Achievers have a 60 days late payment or worse listed on their credit report.
- The presence of a serious delinquency or derogatory indicator is a highly correlated predictor of future payment risk. People with previous late payments are more likely to pay late in the future. As these items age, they will have less impact on the FICO® Score. Most late payments stay on your report for no more than seven years.

— High credit usage

- You've made heavy use of your available revolving credit.
- Ratio of your revolving balances to your credit limits: 88%
- For FICO High Achievers, the average ratio of the revolving account balances to credit limits is 6%.
- The FICO® Score evaluates balances in relation to available credit on revolving accounts. The extent of a person's credit usage is one of the most important factors considered by a FICO® Score. People who keep their ratio of balances to credit limits lower are generally considered less risky to lenders than those with higher ratios. Note, consolidating or moving debt from one account to another will usually not change the total amount owed.

— Bad payment history

- You have one or more accounts showing missed payments or derogatory indicators.
- Number of your accounts with a missed payment or derogatory indicator: 5 accounts
- About 99% of FICO High Achievers have no missed payments at all. But of those who do, the missed payment happened more than 4 years ago, on average.
- The presence of missed and late payments or derogatory indicators on a credit report, including the number of late payments, how late they were and how recently they occurred, are correlated with future credit risk. Your FICO® Score was lowered due to the number of missed and late payments and/or accounts with derogatory indicators reported. As the number of accounts with delinquency or derogatory indicators decreases, they have less impact on a FICO® Score.

— Recent missed payment

- You recently missed a payment or had a derogatory indicator reported on your credit report.
- Your most recent missed payment happened: 1 Month ago
- About 99% of FICO High Achievers have no missed payments at all. But of those who do, the missed payment happened more than 4 years ago, on average.
- The presence of missed or late payments or derogatory indicators on a credit report, including the number of missed payments, how late they were and how recently they occurred, are correlated with future credit risk. Generally speaking, people who consistently pay their bills on time are less risky compared to people with recently missed payments. As missed payments age, they have less impact on a FICO® Score.

Disclaimer

About your FICO® Score 8 or other FICO® Scores

Your FICO® Score 8 powered by Experian data is formulated using the information in your credit file at the time it is requested. Many but not all lenders use FICO® Score 8. In addition to the FICO® Score 8, we may offer and provide other base or industry-specific FICO® Scores (such as FICO® Auto Scores and FICO® Bankcard Scores). The other FICO® Scores made available are calculated from versions of the base and industry-specific FICO® Score models.

Base FICO® Scores (including the FICO® Score 8) range from 300 to 850. Industry-specific FICO® Scores range from 250-900. Higher scores represent a greater likelihood that you'll pay back your debts so you are viewed as being a lower credit risk to lenders. A lower FICO® Score indicates to lenders that you may be a higher credit risk. There are many scoring models used in the marketplace. The type of score used, and its associated risk levels, may vary from lender to lender. But regardless of what scoring model is used, they all have one purpose: to summarize your creditworthiness. Keep in mind that your score is just one factor used in the application process. Other factors, such as your annual salary and length of employment, may also be considered by lenders when you apply for a loan.

What this means to you:

Credit scoring can help you understand your overall credit rating and help companies better understand how to serve you. Overall benefits of credit scoring have included faster credit approvals, reduction in human error and bias, consistency, and better terms and rates for American consumers through reduced costs and losses for lenders. Your lender or insurer may use a different FICO® Score than FICO® Score 8 or other base or industry-specific FICO® Scores provided by us, or different scoring models to determine how you score.
